### Updated School and Child Care Provincial Screening Tool

The provincial COVID-19 School and Child Care Screening Tool has now been updated online. A more sensitive symptoms list has been reinstated for daily active screening of all students and staff in schools and childcare, in effort to curb the spread of COVID-19.

Anyone who has symptoms suggestive of COVID-19 or is a confirmed positive case must self-isolate, regardless of vaccination status.

Attached are hard copies of the screening tool and instructions on how to self-monitor and self-isolate, as well as a symptom list. Attached is also the UCDSB Confirmation of Daily Screening sheet for students.
